Says

What have we heard them say?
What can we imagine them saying?

Medical Club is open to all students looking to learn more about medicine and neuroscience.

This topic changes every two months.

We have two meetings and activities every month through which we educate our members about a medical topic and plan fun activities and experiments around the topic.

The Medical Club is for students from all grades and provides a opportunity for them to expand their medical knowledge and development.

The Medical Club is an integral part of the school's curriculum and provides a platform for students to learn about the latest in medicine and neuroscience.

The Medical Club is a place where students can learn about the latest in medicine and neuroscience and also have fun with their friends.

Does

What behavior have we observed?
What can we imagine them doing?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

We hold fundraisers for senior centers and hospitals and strive to help our community.

Medical Club also offers the opportunity to compete in different medical and neuroscience competitions.

Through the Medical Club you can become a member of the Medical Club and receive a variety of benefits including a variety of medical and neuroscience resources and a variety of medical and neuroscience resources.

Persona's name

Short summary of the persona

The purpose of the Medical Club is to provide students who are interested in pursuing medical careers with opportunities to explore the various field of medicine and to foster growth of medical knowledge through clinical volunteering, mission trips, and lectures from health professionals.

The club has made an effort to be involved in service through annual mission trips such as our recent trip to Guatemala, Costa Rica.

In addition, many members engage in research and volunteer work in medical settings such as Dominican Hospital and Henry Ford Hospital.

Feels

What are their fears, frustrations, and anxieties?
